Last Updated Sunday, 26 November 2006

Scott has been working at the Ascot Veterinary Surgery since its inception in the early 80's. He moved the practice to its current location in 1992. Scott has an interest in dog breeding and for a number of years, bred Cavalier King Charles Spaniels.

He has graduated from the university of Queensland in 1983. He subsequently completed Accreditation with the federal government for Veterinarians and then Australian Quarantine Accreditation to enable him to facilitate the exportation of pet animals overseas.

Scott regularly attends continuing education classes in Brisbane to ensure he is up to date with the most recent treatment concepts and each year attends the Australia Veterinary Associations Annual Conference.

Scott is pictured here with Labrador Pete, a regular attendee at Ascot Vet because of the foreign objects he likes to chew and swallow for us to retrieve.
